

"No commercial project or fit-out should be undertaken without including the superior lighting control and energy saving benefits of Clipsal C-Bus, delivered by a C-Bus Platinum Partner."

Go Platinum with your next C-Bus project

Intelligent Building Solutions

We are pleased to announce that, in addition to our long and prestigious line up of professional and industry certifications and accreditations, Quark Automation has been certified as a C-Bus Platinum solutions partner with Clipsal Australia Pty. Limited.

C-Bus Platinum is your assurance the systems integrator working on your investment has attained the highest level of competence, having successfully completed dedicated training for commercial applications of C-Bus, Platinum Partners provide detailed system design, programming, commissioning, documentation and project management. You can have full confidence as work completed by a Platinum Partner is accredited by Clipsal.

Platinum Partners implement C-Bus technology consisting of sensors, user interfaces and control modules, then integrate these with other systems to tailor a solution that meets your specific needs. In today's world of carbon footprints, Green Star energy ratings and government led initiatives such as the Building Code of Australia (BCA) and the National Built Environment Rating Scheme (NABERS), there is a hard dollar incentive to make every building as green as it can be.

Creating an integrated solution

C-Bus also offers a platform to create a true integrated building solution with lighting control, climate control, audio visual, security and more. To achieve this, Clipsal created the C-Bus Entente Program, an alliance with third party manufacturers to ensure their products are C-Bus compatible. These partners include major players such as AMX®, Tour Andover Controls (TAC), Ness Security Products and Automated Logic Corporation (ALC) to name a few.

C-Bus Platinum Partners understand the relationship with Entente Partners and will deliver an integrated solution that is tailored for the project. Other C-Bus Platinum benefits include:

- Vendor support from project design through to completion
- Tailored cost effective solutions through consultation with key stakeholders
- A high level of installation quality for C-Bus and complementary integrated products
- Extended warranty for systems and ongoing support.

Expertise from the source and beyond

When you specify C-Bus Platinum, you also ensure your project has the backing of Clipsal with specialist national sales staff and technical support. Together we can work closely with developers, consultants, architects, project managers and facility managers to deliver your full electrical needs and building management requirements.

By choosing the Clipsal brand with Quark Automation, you also get the full backing of Schneider Electric, the world's largest electrical company. Clipsal is affiliated with complementary brands in the Schneider Electric Group, such as: TAC (Building Management and Security Systems), Citect (Real Time Intelligence Software), APC (Critical Power and Cooling), Efficient Energy Systems, Moduline (Cable Management Systems) and more.
